

Animal Care and Use Committee (ACUC) &
Research Animal Resources (RAR) presents the:

2025 Rodent Seminars & Workshops

Seminar Series

- In this 1-hr talk, learn about different topics pertaining the humane care and use of rodents in research.

Rodent Survival Surgery Workshop

- In this 4-hr workshop, learn how to perform rodent surgeries, especially the conduct of surgical preparation, aseptic technique, dissection, suturing.

Rodent Biomethodology Workshop

- In this 4-hr workshop, learn how to perform microisolation technique, restraint (manual, mechanical, and chemical (sedation/anesthesia)), Identification, sexing, tissue biopsy for genotyping, blood collection, oral gavage, injections, euthanasia, tissue harvests, and other procedures per requests.

The following is the schedule for 2025; dates subject to change:

- | | |
|--------------|---|
| • 1/22/2025 | Seminar: Humane Endpoints |
| • 2/26/2025 | Workshop: Rodent Biomethodology |
| • 3/26/2025 | Workshop: Rodent Biomethodology |
| • 4/23/2025 | Seminar: Anesthesia, Analgesia, and Euthanasia |
| • 5/21/2025 | Seminar: Rodent Survival Surgery* |
| • 5/28/2025 | Workshop: Rodent Survival Surgery |
| • 6/25/2025 | Workshop: Rodent Biomethodology |
| • 7/9/2025 | Seminar: Colony Management |
| • 8/6/2025 | Workshop: Rodent Biomethodology |
| • 8/27/2025 | Seminar: Humane Endpoints |
| • 9/17/2025 | Seminar: Rodent Survival Surgery* |
| • 9/24/2025 | Workshop: Rodent Survival Surgery |
| • 10/22/2025 | Workshop: Rodent Biomethodology |
| • 11/19/2025 | Seminar: Anesthesia, Analgesia, and Euthanasia |
| • 12/17/2025 | Seminar: Colony Management |

prerequisite for the succeeding workshop

Note: 1) All seminars are on Zoom only. 2) Workshops are limited and require registration.
